

OFFICIAL PARTNER OF AVERRA OÜ

# MAN AGRO

*Tradition Above Everything*

# OUR STORY

Despite the fact that it was officially established in 2015, MAN-AGRO LLC has its origins in gardening since 2006, after the meeting of two young and energetic founders of our company - Elnur Mansimov and Akbar Manafov in the Gusar region. Since at that time intensive gardening was a new industry for Azerbaijan, we, together with investors, were the first to start planting apple orchards using the French method. We have expanded many areas of activity and in a short time signed a large and successful project.

After that we decided to intensively grow other fruits and started planting stone fruits using the latest and most modern methods in Spain. Inspired by the professional work of European, especially French and Spanish gardeners, we applied the latest world trends and achievements in the Gusar region of northern Azerbaijan with great love and persistence. We made very sensitive decisions in planting each of our orchards, choosing the type and variety of fruits, determining planting and growing methods, and today we can proudly say that our gardens have reached up to 380 hectares in such a short period.

Manafov Akbar

Mansimov Elnur

# TODAY IN THE USE OF OUR COMPANY:

- 120 ha of apple orchards
- 100 ha of peach and nectarine orchards
- 50 ha of apricot orchards
- 40 ha of pear orchards
- 20 ha of cherry orchards
- 20 ha of persimmon orchards
- 20 ha of quince gardens
- 10 ha of plum orchards

There is also a very high probability of consolidating many small farms around us, providing about 15000 tons of packaged fruits annually.

Sorting and packaging is providing in our warehouse, next to the orchards, respectively, with modern equipment from the Netherlands, Greefa brand.

# WHY US?

- We treat to our work with special responsibility
- We breed and plant fruits using advance techniques
- We grow fruits without harming the environment using European pesticides
- We harvest our miracle with awe and tenderness.
- We use modern ecological containers for packing our fruits, which we purchase from abroad
- 100% natural fruits
- Superior quality products
- Reliable supply chain
- Affordable prices
- We adhere to a simple equation

**Taste + Quality + Price = PROFITABLE**
